About This Game

Would a hero like you assassinate the president of the United States to defend the right to be Powered?

As the corrupt President Victon launches his oppressive campaign of Powered Regulation, your Legendary heroic rise transforms into something much more: you must become a political icon fighting to restore Powered rights in America. This new battle takes a twisted turn when your once-greatest enemy, Prodigal, tells you President Victon's darkest secret...

Now you are faced with the biggest choices of your career: Do you trust the word of your archenemy? Will you evade President Victon's gang of criminal bounty hunters? Can you save your family and complete your rise as a Legendary hero?

"Heroes Rise: HeroFall" completes the epic Heroes Rise trilogy by Zachary Sergi, featuring the smash hits "Heroes Rise: The Prodigy" and "Heroes Rise: The Hero Project," interactive novels where your choices control the story. The Heroes Rise trilogy is entirely text-based—without graphics or sound effects—and driven by the vast, unstoppable power of your imagination.

All of your decisions lead to this epic conclusion, where you must truly define what you believe is right and what you stand for as a hero—and what (or whom) you're willing to sacrifice for those ideals. Play as male or female, gay or straight, and decide how your story will end. How many alternate endings can you unlock?

Ruggiero is carrying something wide and flat under his arm; the case of an instrument. Your Genius is thumping in a prickly and arrhythmic beat, like two hearts dueling, at the thought that he is going to be playing the strings at this concert. But what he pulls out of the case surprises you. It has a keyboard, albeit one shorter than on a full-sized piano. It also has a strap, which Ruggiero shrugs over his shoulder, so that the keyboard hangs slanted over his chest. The instrument has a stubby, upward facing neck, with three drone strings. With a few experimental plucks, Ruggiero demonstrates the use of the instrument: his left hand moves up and down the neck playing droning chords, while his right hand dances over the keys, which must function somewhat in the fashion of a harpsichord's.

He begins to play. Your Genius swirls with dark tendrils. You can feel it wanting to tangle with Ruggiero's Genius as your rival plays his first piece, a chilling sonata which reminds you of tombs shattering open, of disinterment, and seething corruption.

- I menace Ruggiero's Genius with mine, trying to throw him off.
- I attempt to let my Genius feed silently on the energy of Ruggiero's Genius.
- I keep my Genius tightly in check; it would be wrong to let it interact with his.

Very cool game, but could you please add more slots and more troops and maps to keep this game fresh?

. Honestly, for 75c it's an absolute steal. If you're wanting a game to play with your mates and laugh about; this is for sure one of the best options out there. I was looking at the worst selling games on steam, thought i would give it a try and oh man, i am not dissatisfied.

There are a few features you the gamer have to work out to truly enjoy that game, i wont spoil anymore than this but...
Reloading your gun kills the fish. shhh... \u2b50\u2b50\u2b50\u2b50. 10/10 would go bankrupt again. Don't be fooled by the art style, this is a good game. I found every special item without help, though some were tricky.. Great game. It is a mix between a sports management game and a turn based fantasy strategy game. Be careful to save your money for reviving your team members!. One day the MC person Found out about His so called Mansion That he Now owned due to his Grandfather passing And He wanted to take good care of it. Little did the mc know Something or rather someone was not right He was checking the place out when all of sudden These Lifeless Dolls appeared out of Nowhere. There was Red and Beige Colored one And They wanted To Heed Warning To Him but he would not Listen. When finally the First day ended He was Told he has 5 Days to Survive Adline Attacks Before she was Finally defeated And the Mansion would be saved. Little did they all know The Psychopath Killer Showed Every Midnight and each time she Got Attacked she grew Stronger. The Red Haired Doll Had Fire Magic while The beige Doll had Healing Magic That Protected everyone. The 2 Dolls were born In nice Shop where kind person brought them to life with Magic Infused But The Killer one was Enveloped IN darkness and Nothing more. She would do Anything to see the dolls dead even if it means Crushing there skulls or Beating them to death. In All The Game was Amazing Short and sweet But good ^^ I would Def Recc this For people Who Like the Doll Aspect Story.

Two shades of Kagura's risqué "swimsuit," such as it is, from the beach cutscene added to your wardrobe. You can't get this in game without ponying up for this DLC even though you are teased with it in that cutscene.. all this is, is BULL\ waves after waves and then timed sections and it isn't even over an hour of play would you play 5 canadian for this bs because it was a grave mistake on my part and i feel like a absolute idiot for it. I have nothing to review, but would remind you there a HD Content giving for free don't forgot to get it before playing.. Press 1 button everything dies.... i wish i could play DW3 on PC. Probably not worth the install though. I played it once got the only achievement and uninstalled it.. This is amazing.. We're addicted, My husband and i both have HTC Vives and the only two things we can suggest is Ambient sound \ music in the background, and to make this game multiplayer. It is not fun to play alone.. I have enjoyed this game for many hours beyond the time that Steam knows of. Having been part of beta testing and on I have seen this game evolve from it's original masochistic minimalist form to its current massively, masochistic, minimalistic form. With the addition of power-ups the developer has granted players a morsel of mercy that adds to the fun. It also gives me the ability to say, in a curmudgeonly voice, "Power-ups?! Back in my day, a Disastr_Blasr power-up was a kick in the jimmy! And we liked it!"

One of the truly cool things I love about Dog Theory's approach with this minimalist game is that every detail is meaningful. When I play this game it is clear to me that a lot of love and thought has been squished into it.

Heart pounding, cool sounding, super-challenging and artsy fun!. This game claims to be multiplayer but there are no real-time connections. The multiplayer connection is archaic to say the least and requires players to download files outside of the game, open the game, save and upload files back to a commissioner. Ridiculous! Pretty sure FHM2007 had the ability to run real-time connections - which I have countless hours playing with friends. I would not have spent \$40 on this game had I known, nor would I have purchased a copy for a friend as well! This is crap.. Not bad, but still needs improvements. I don't like the fact that after the winter is over I lose a lot of stuff from my cupboards. I know some of it is used to survive the winter, but that much, takes too long to stock up. Has some graphics glitches but nothing too serious. The towns are too repetitive, needs different buildings made out of different materials. I'm giving it a thumbs up because it has a lot of potential to grow and become much more enjoyable. Definately needs more animals. All i've come across so far are pigs, rabbits and dears. I know it's still early days yet so i'll just be waiting for more content to be added. Still enjoyable to play.. 4 years after it's debut on Steam it is still in Early Access. Not really much hope of this one ever being a complete game at this point.
