A: If your BIOS settings are correct, you should boot the system and enter BIOS setup, under the boot device settings, select CD/DVD-ROM, and then set the boot order to CD/DVD-ROM before Hard Drive or USB. You can then boot from CD/DVD and install. If you can't boot from the CD/DVD, try rebooting into the Windows bootable installer and select Repair your computer. It should be able to repair the boot CD/DVD. [Risk factors of anastomotic leakage after pancreaticoduodenectomy: analysis of 46 cases]. To explore the risk factors of anastomotic leakage after pancreaticoduodenectomy (PD) and try to find a strategy to reduce its incidence. A total of 46 PD patients were divided into anastomotic leakage group (n=12) and non-anastomotic leakage group (n=34) according to postoperative anastomotic complications. The incidence of anastomotic leakage was analyzed according to patients' age, gender, pathological type, operative method, tumor location and the size of the tumor. Compared with non-anastomotic leakage group, there were more patients aged less than 60 years old, females, gastric cancer and small tumor size in anastomotic leakage group (P1. Field of the Invention The present invention relates to a charged particle beam writing apparatus and a charged particle beam writing method. 2. Description of the Related Art The lithography technique that, for example, treats a surface of a resist that has a resist coating film, by using a beam (charged particle beam) emitted from an electron gun, such as an electron beam, to form a latent image on a target (resist) film is used to manufacture fine circuit patterns or the like. Such a pattern 82157476af
